

Pavan Sanwlot

Web developer and IT Specialist

As a dynamic web developer, I possess skills in PHP, Python, and front-end technologies such as HTML, CSS, and JavaScript, alongside expertise in computer hardware and networking IT solutions. I am dedicated to providing high-quality, scalable web solutions, and I am keen to bring innovative ideas to fruition while collaborating on projects that promote professional development and have a significant impact.

PERSONAL PROJECTS

WordPress E-Commerce Store (11/2024 - 11/2024)

- I developed a fully functional e-commerce clothing store using the WooCommerce plugin on WordPress. The project involved setting up a responsive and user-friendly online shopping platform, complete with product categories, filters, and a secure checkout process. I customized themes and layouts to reflect the brand's identity, ensuring a visually appealing and seamless user experience.

Wedding Event Website (10/2024 - 11/2024)

- I created a Wedding Event website project this is wedding and event Services provider website this is a frontend project build using HTML, CSS and JavaScript.

EduAid (07/2024 - 10/2024)

- Edu Aid: Empowering Education Through Technology Edu Aid is a web-based platform designed to bridge the educational gap for underprivileged children and adults.
- Technology Stack: Backend - Java Spring Boot; Frontend - HTML5, CSS3, JavaScript; Database - MySQL; API Integration - REST APIs for frontend and backend communication; Authentication - Spring Security with JWT for secure access control.

Personal Notes App (09/2024 - 10/2024)

- I created and worked on this Laravel project this is A personal notes manager application build on Laravel 11 framework inside which can register, login and create personal notes at your convenience at your fingertips.

Jeet Agency (06/2024 - 10/2024)

- Jeet Agency is a Python Django-based online application designed for blue-collar workers that offers consulting and job-hunting services.

Zest-Cafe (06/2024 - 08/2024)

- Zest-Cafe Is Restaurant Dining website this project was built on HTML, CSS, JS and PHP with Integration IBM Watson Chatbot assist

WORK EXPERIENCE

IBM (INTERN) Calicut, Kerela (05/2024 - 10/2024)

During my five-month Java Development Internship at IBM, I developed and optimized backend solutions using Java. I worked on a real-time web application, focusing on performance and scalability. My tasks included designing RESTful APIs, database integration, debugging, and data validation, enhancing reliability and efficiency.
